01

TECHNOLOGY

It is formulated with **K4Power® Polypeptide**, which reverses damage and leaves hair soft over time. This polypeptide works at a molecular level to repair damaged hair and prevent frizz. Combined with Olive Oil, it provides these key benefits:

- **Intense Hydration:** Penetrates the hair fiber to restore moisture and suppleness, combating dryness.
- **Nourishment and Repair:** Rich in fatty acids (omega-3, omega-6) and vitamin E, it deeply nourishes and repairs damage, filling in micro-fissures.
- **Shine and Softness:** Revives natural shine, smooths the hair fiber, and eliminates frizz for silkier hair.
- **Protection:** Antioxidants (polyphenols) protect against sun, pollution, and heat, providing thermal protection up to 232°C*. This helps prevent damage that causes frizz, while lipids strengthen the hair structure.
- **Scalp Health:** Its soothing, antibacterial, and antifungal properties calm irritation and itching and help combat dandruff.
- **Strengthening and Growth:** Strengthens follicles, slows hair loss, and can accelerate growth thanks to massage that stimulates microcirculation.

OLIVEPTIDE Repair Lotion is formulated without sulfates, silicones, parabens, phthalates, linal, artificial colors, sodium chloride, or formaldehyde. It is vegan and cruelty-free.

02

DIRECTIONS FOR USE

The **OLIVEPTIDE** Repair Lotion from **Polypeptide K4Power®** is applied at the end of the protocol to provide a finishing touch after the Polypeptide K4Power AI Molecular Hair Science Treatment.

03

APPLICATION

Following the complete Polypeptide K4Power® hair repair protocol

SHAKE WELL Until the serum changes from clear to milky white.

On damp hair, apply 1 to 3 drops of **OLIVEPTIDE**, starting at the ends and working up to mid-lengths.

Leave on for 4 minutes, then style as usual.

As a finishing touch: On dry hair, apply 1 to 3 drops of **OLIVEPTIDE**.

04

INGREDIENTS

Caprylyl Caprylate/Caprates, Squalane, Olea Europaea (Fruit Oil), Argania Spinosa (kernel oil), C13-15 Alkane, Benzyl Alcohol, Castor Isostearate Succinate, Propanediol, polypeptide Amino Acids (**K4Power®**), Fragrance (Parfum), Tocopherol.
